---

Linda,

I have just received a DRAFT work plan from the Respondents for the design and implementation of a cover that is intended to stabilize contamination and prevent further release of dioxins / furans from entering the San Jacinto River from the waste pits.

Please provide with me the best point of contact with who I may share this technical document with and receive comments and feedback from the Port of Houston Authority.

Sincerely,

-----

Barbara,

I found the meetings yesterday to be very informative, but I was surprised to find out that neither the draft Technical Memorandum nor the revised draft of the Technical Memorandum had been shared with the Port Authority. Indeed, yesterday was the first time I had heard anything at all about the Technical Memorandum; yet, if I understood correctly, the memos were shared with both TCEQ and Harris County. I would appreciate knowing whether there was a reason why this information was not shared with us, or whether it was simply an oversight; as follow up to yesterday's conversation, I would appreciate your sharing this information with us now. Thank you, Barbara.
